WE’RE OPEN FOR YOU!

The Cultural Activities Center and the State of Texas are opening for Texans to do business and gather safely.

- **Zoom and In-person combo meeting**
  
  Patrons are meeting and conducting events while practicing “social distancing” measures to protect the welfare of the employees and the participants. Through a combination of Zoom meeting access and in-person attendees, the CAC staff is facilitating group events.

- **Featured Artists on Fridays**
  
  Each Friday a featured artist demonstrates at the CAC and shares sources for inspiration and secrets of the creative process. These demonstrations are open for the public to come and visit and stroll through the galleries. The interviews are posted on social media for all to share.

- **Planning for classes and camps**
  
  As the center slowly opens up, classes for adults and children and workshops are being set. Dates will be confirmed when seating capacity and arrangements are feasible for safe participation in compliance with current guidelines.

- **Weekend/Evening Events in June**
  
  Beginning in June, the facility will open in the evenings and on weekends as needed for events.

- **On-line concerts and shows**
  
  Visit the CAC YouTube channel for access to past performances on the stage. Enjoy performances ranging from children’s programming of past years of Hands On productions to musical offerings from our previous Texas Music Series shows.

Safety of our patrons and employees remains our top priority. Each time that local, state or federal guidelines are issued, the staff is trained and advised as necessary. The board members of the CAC remain committed to complying to standards that still allow for the enjoyment of the facility and fulfillment of its mission. Changes will be inevitable under the current circumstances as “social distancing” is necessary. We appreciate your patience and hope to see you soon.

For updates

**FACE MASKS** will be required inside the facility for all patrons and employees. The CDC guidelines and local/state government guidelines suggest that this measure is the most efficient way to stop the spread of COVID-19. If you do not have a mask, one can be provided in the administrative office.
